MISS MARY ANN STEWARD'S
PREPARATORY SCHOOL,
FOR YOUNG LADIES,
Carfrae Place, Bay-street, City of Toronto.

THE ROYAL FLOATING BATHS,

City of Toronto.

THESE BATHS have been erected by Mr. Cull, of this City. They are one hundred and ten feet in length, and twenty one feet in width, and contain ten warm and ten cold Baths, with Vapour and Shower Baths. The Baths for young people are less deep than those for adults. One end is *exclusively* appropriated to Ladies, with a private entrance from a gallery outside and leading to an elegant drawing-room adjoining a promenade deck eighty feet long, with a dome roof and trellis-work guards all round. It is capable of accommodating two hundred persons, and so constructed that the additional weight of three hundred will not depress the Bath one inch. There are reading and refreshment rooms for both ladies and gentlemen, fitted up in the best possible style.

These Baths are highly creditable to the City in point of appearance, and not less so as to their utility.

THE PRINCIPAL HOTELS IN THE CITY OF TORONTO, ARE—

John Cotter's New British Coffee-House, corner of King and York-street, at the west end of the City.
James Hutcheson's City Hotel, Front-street.
David Botsford's Ontario House, do
William Campbell's North American Hotel, Front-street.
John Grantham's Old British Coffee-House, do

MERCANTILE ALMANACK.

This Almanac (or Table) will be found useful in calculating the time when notes become due. For instance—if a note is dated February 11th, at 90 days, that date, as will be seen, is the 42d day of the year, being in a line with 11 in the index, or left-hand column, to which add 93 days (which includes 3 days grace) and the table shows the 135th day of the year to be May 15th, and falling on Friday.

N. B.—This table is sufficiently accurate for the purpose for which it is wanted—that of ascertaining moonlight evenings.

OF THE CHANGES OF THE MOON.

Many persons, understanding that the mean time between one new Moon and another is 29 days, 12 hours, 44 minutes and a fraction, imagine that, to find the full or quarters of the Moon, they have only to add a half or fourth part of that time; and when they do not find the changes marked in the Calendar to correspond with this method, they impute it to mistake in the calculation of those changes. It is therefore necessary to put them in mind, that the great inequality of the Moon's motions renders the above rule extremely inaccurate, so that nineteen times in twenty it must fail in giving the true conjunction or change.

THE FOUR QUARTERS.

Spring Quarter begins March 20, at 1h 14m morning.
Summer Quarter begins June 22, at 4h 38m morning.
Autumn Quarter begins Sept. 23, at 5h 7m afternoon.
Winter Quarter begins Dec. 22, at 2h 3m afternoon.

This Institution for several years was ably and most successfully conducted by the Hon. and Ven. the Archdeacon of York. For a few years after his resignation, it had no teacher, as it was thought unnecessary, that it should be continued any longer. In consequence, however, of the growing population of the City, a number of respectable individuals, impressed with the value of such an institution, presented a petition to the Lieutenant Governor Sir

John Colborne, praying that it might be re-opened, which was done in May, 1834, by the appointment of the Rev. D. Macaulay as Principal. Since that time the school has flourished, and the average number of pupils is from ninety to upwards of one hundred. The branches of education taught are, Hebrew, Greek, Latin, French, English, and English composition, the use of the Globes, Mathematics, Writing, Book-keeping, Drawing, &c.

Masters.—Rev D Macaulay, principal; Wm Brethour A B, second master; Alexander Mackay, assistant teacher; M Mancarte, teacher of French; A Young, teacher of drawing.

Mr. Macaulay takes young gentlemen to board in his house whose education he superintends.

PRIMITIVE METHODISTS.

Chapel situated in Bay-street, City of Toronto.

In the year 1829, Mr William Lawson, a Primitive Methodist Local Preacher, from London, settled in York, and immediately commenced preaching in the market square, formed a society, and wrote to the P M Conference in England, for a missionary. One was sent who arrived in August 1830, and took the society thus formed into the connexion of the said conference.

Connected with this station are 4 travelling preachers, 30 local preachers, 330 members, and 42 distinct congregations.

NOTE.—The doctrines and rules of the Primitive Methodists, for private members, are the same as the Wesleyans, from whom they differ in some points of church government, viz. their district and annual conference, being composed of two parts laymen, and one part travelling preachers; this was intended to preserve a just equipoise of power, and unite all the intelligence and experience of their society, in their church government.
